

**"'Envisage' means- to visualise, contemplate or conceive – and that precisely is what Envisage enables - visualising and creating your dream spaces."**

While we have always enjoyed meeting in person, we have to embrace the new normal of working remotely and digitally. In our attempt to stay connected, and safe during this pandemic, we will now share a monthly newsletter with you to stay connected and show our work in the comfort of your homes.

At Envisage, we hope to share a vision and our insights with you to help you realize, aesthetically enhance, practically sort and construct your ideas. We look forward to forging new relationships and alliances towards building through spaces digitally.

## Meena

*If quarantine has brought something positive into the lives of many people around the world, it is the opportunity to dive into new activities that we did not have time or energy for beforehand. Having a digital presence provides an in-depth look into your services and products, and will catch our customer's attention.*

## Vishal

*The crisis has created unforeseen circumstances worldwide with significant impact on the global economy. Within this crisis, the architecture and construction industry are not exceptions. In this complex scenario, we can only help through our services while respecting social distancing and avoiding physical contact with architects and clients.*

**"Let's keep in touch. We look forward to hearing from you."**
